New Depression Blackmore Says Canadians Fear Unemployment

TORONTO, April 5.—(CP)—New Democracy leader Blackmore said last night at a national Social Credit convention here that the present war is greater and more like a war to begin war than to end war.

Mr. Blackmore said Canada was "desperately sick" and there was despair in the people's hearts as they feared unemployment and depression would lead the present conflict, with other economic disastances likely to lead to war as in the past.

"We are being offered socialism, which is all the bad things the Liberals and Progressive Conservatives have tried in concentrated form, and a little bit more," said Mr. Blackmore.

TORONTO, April 5.—(CP)—The national Social Credit convention today passed a resolution providing for the establishment of a national political organization prepared to participate in federal election contests.

The resolution was given enthusiastic approval on a voice vote which appeared to be almost unanimous. The action followed defeat by a secret ballot at the morning session of an amendment moved by Quebec delegates which urged continued concentration on educational rather than political activities.

As a result of the case now recruiting in rural areas will be done through local recruiting units.

By ALAN RANDAL

LONDON, April 3.—(CP)—When Capt. F. J. Walker, D.S.O., brought his second escort group of sloops into port after killing six submarines, it was a great day for one navy and also proof of the merit in newly-developed tactics, which beat the dangerous pack-hunting tactics of the Nazis.

The answer—anti-submarine packs of sloops to hunt packs of submarines. But not so very long ago the sloops were not there to constitute such special escort groups that commanded by Capt. Walker, who had ships out on a 24-day patrol and came back with five of his six ships and a bag of six U-boats.

Closing of Mines
Seen as "Threat"
OTTAWA, April 3.—(CP)—An official of the Prices Board's coal administration said last night that the closing of mines in the Edmonton area of coal operators in the Edmonton area was a "threat" to the situation would "work out at all."

He was commenting upon a dispatch from Edmonton saying that the coal operators were filing notices of abandonment with the Alberta government pending work from the federal government on a request for a higher subsidy.

The official said he understood the mines were seasonal operations which did not work regularly in the summer, and that due to the mild winter this year they probably are closing a little earlier than usual.

"It is a contentious subject," he said. The Dominion government has offered the operators a subsidy of 10 cents a ton, but the operators have requested a 75-cent-a-ton subsidy.

Further guarantee listed by the committee would be obligation by such states not to grant preferential advantages to a third state.

The United States, said to have been particularly insistent upon banning of German shipments throughout the two months' negotiation, was understood to have agreed to the arrangement for token imports.

The ministry of economic warfare said Spain had exported no German goods to Germany for the last two months.

cialist forces, for Communists and Socialists are one and the same."
Norman Jagers, New Democratic member of parliament for Neudor, Alton, spoke of a recent visit to Mr. H. Douglas, founder of Social Credit, in Scotland.

He had seen the damage done to the house of commons building during the London blitz, he said, and he described the strength of buildings which had stood for nearly 600 years. The British constitution, like these buildings, must be restored, not destroyed, and its restoration should be undertaken by Social Credit.

Mrs. R. H. Berry, of Cloverdale, B.C., also spoke of the movement's objectives.

Mr. Blackmore began by saying Canada was actually taking the possibilities given to it by providence. There was the opportunity to perform "marvellous work."

Canada could support a great population with a high standard of living.

Canada needed people but there was actually talk that unemployment would increase if the population grew. He believed himself that Canada could support perhaps 55,000,000 people.

Those who had believed great things could be done for Canada always had failed. Something went wrong with Canada and were in danger of losing their faith and ideas.

"We must fight on," said Mr. Blackmore. Many young men had died in the present war and from their spirits came the call not to break faith.

Permit Figures Up

During the first three months of this year 59 permits for the erection of new dwellings were taken out in Edmonton, and 110 permits for alterations. Fourteen permits were issued for new commercial buildings and 26 for alterations, and for the erection of three institutional buildings.

In all these particulars, and for the total investment planned, the figures are well over those of the same period in previous years. Last summer was an active construction season, as active as labor and materials permitted. The direct inference is that the coming summer will be still busier, since the permit figures are still higher, and as the weather and labor promise to be somewhat more plentiful—or less scarce.

Winter has broken fairly early and favorable weather seems to be in prospect. With so extensive a program, and builders and materials certain to be in keen demand, it is to be hoped that the city plan to build will get their operations under way as quickly as possible. That will be necessary if full advantage is to be taken of the circumstances. Delay now may mean disinvestment as the summer draws toward a close.

The Stock Sales

The history of the horse sales at Lacombe and Red Deer are being repeated at Calgary, where high quality beef cattle in particular are bringing high prices and apparently meeting the demand.

More than 900 entries have been made for Edmonton's Spring Stock Show and Sale, which takes place next week, and the accommodations for the show are necessary. There is every reason to suppose that the event here will be marked, like those at other times, by the buying and good prices. Stock-growing is going strong on the farms in central and northern Alberta, as on the ranches in the south.

Behind this demand for good breeding stock, and inspiring it, is the fact that years must elapse before the world supply of meat and other animal products will slacken, and corresponding confidence that the horse will continue to be the prime mover on farms of moderate size. No change in this emphasis on stock-growing is more appropriate than in the country around Edmonton, and no centre in Canada stands to profit more certainly from the expansion and prosperity of this branch of agriculture.

Russian Bogey Again

The National Film Board has been under fire in the House of Commons for issuing pictures which deal with Soviet Russia. One indignation member said that these films were nothing but Soviet propaganda and that the Film Board was being "selling" Canadianism.

There is a serious danger that the current Russophobia may be overcome. There is no doubt that the Russians are Canadians who are becoming more Russian than the Russians. But this absurd international posturing will certainly not throw the Russians into the lap of Communism, which is the general effect of these exaggerations is to make Communism ridiculous. The sense of humor of the Canadian people is a valuable antidote to any overdone propaganda.

In the meanwhile, there is a very pressing need for a broad and general Canadian understanding of Russian aims and objects, both in a political and social way. Canadians need to know Russia, not because they are going to adopt the Russian way of life, but because they have become Russia's close neighbors.

To raise the ragged Soviet bogey again at this stage is not only unwise but a trifle silly.

On the Spot

If any of Hitler's satellite states was in position to court itself secure against attack, it was Hungary. Planted in the middle of Europe, with the Danube for a natural barrier, the bombs blasted the capital city of Budapest twenty within 24 hours. Their particular targets were the railway terminals from which lines radiate in all directions.

But Hungary has found out that the continent is not broad enough to make it safe against Allied bombers, while to the east Russian activity is within range of the border. The bombs blasted the capital city of Budapest twenty within 24 hours. Their particular targets were the railway terminals from which lines radiate in all directions.

The mountain passes between Nazi-Poland and Rumania are in the hands of the only communication lines between Germany and Rumania run through Hungary. That explains the bombing of Budapest—both from the air and from the ground. The damage done to much traffic was left moving over these railways or highways. The attacks will be continued or resumed as necessary to block the movement of troops and supplies from the Reich to the Rumanian front.

Hungary, from a position of fancied security, has suddenly found itself in one of the hot spots. Hitler's troops and Hunnish snipers are all over the country ready to put down resistance. Allied bombers are tearing its vitals to shreds, while from the east is rolling a flood of Russians who may not forget they are holding the great numbers among their assailants at Stalingrad.

Delay Does No Good

Nothing apparently has yet been done to end the deadlock between the Dominion Government and the coal operators, nor to get the Edmonton mines back into production under a temporary arrangement while the matter in dispute is investigated and settled.

As the situation stands, the initiative rests with the Government. The operators say they cannot and will not carry on under the terms of the agreement which demands 65 cents a ton as the maximum. They demand 70 cents a ton on each ton mined. Presumably the Government thinks this demand to be excessive, as the operators claim the subsidy scale offered is too low.

If coal were a luxury no great harm might come of this dispute simmer. But coal is a necessity, and the dispute will be both costly and dangerous. If the maintenance men are withdrawn, as the operators say will be done, the mines will soon go out of condition and can only be restored at heavy expense. And sooner or later they will have to be put into operation again for the coal is needed. Meanwhile the miners are going back to farms and the army and looking for employment elsewhere.

There is no probability that the difficulty will solve itself. Action is needed, and the sooner it is taken the better. The consensus of opinion is that the subsidy the operators should have, but what he does know is that Edmonton's power plant has a none too large stock pile, and that it is going to be gone before the home or store before many months have gone by. He is looking to the Government to take the lead in saving to overpay in price or subsidy, but even more to protect him against a coal famine.

The mines should be got back into production as soon as possible, but whatever means are necessary. The subsidy question can be threshed out afterward.

There is only one front on which enemy forces are now on the offensive—the Assam district in north-eastern India. Thompson Sees Strain in Allied Relations Over Trends

Meet the Navy Sparkling Show

Like all good musical reviews, "Meet the Navy," the Royal Canadian Navy show which opens at the Strand theatre on Monday next is a six-day engagement offering a wide variety of entertainment.

The program has 26 separate acts which vary from elaborate full-stage production numbers to fine concert solos. There are presentations with a real navy atmosphere and there are colorful numbers which might have come from the Broadway show. There is brand-new music written by naval people especially for the show—most of the music is original—but there are also old Russian folk songs and time-honored sea-chants. The music in the show includes pop, folk and romantic songs, operatic numbers and even "Tiger Rag."

Not in it all music. There are comedy numbers and exciting tap dancing. There is a girl ventriloquist and a dance team. There are stunts and ballad plays. There are "Stake settings" specially designed for the show including a colorful "Concert Band" scene of the 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, NEW YORK, April 5.—It seems to us that the most noteworthy competitive display thus far among the 145 nominees for the Kentucky Derby was the distance-speed registered by Challenge Me on the past two week ends at Hot Springs, Ark.

Challenge Me's Brown Son

The Brille Farm's brown son of Challenge 2nd established a new track record of 1:51.3 for 1-1/2 miles in winning the Oklawaha Handicap, March 25.
The big, ground-eating colt followed this victory by winning the \$10,000 Arkansas Derby at Oaklawn last Saturday, covering 1 1/4 miles in 1:50.1-3, just a fifth of a second off the track record set by Whirlaway in 1942.
These distances approach the Kentucky classics mile and a quarter.

Wasn't Pressed

A PARENTLY Challenge Me would have registered faster clockings under pressure, but in earlier races he was pressed. Under easy handling by Tony Stokowski, he breezed to walkaway victories—10 lengths in the handikap, 2 1/4, three-and-a-half lengths in the Arkansas. He carried 100 pounds in the handikap, but took on a burden of 120 Saturday. Both events were won by a comfortable margin.

Challenge Me Has Developed

slowly like most progeny of Challenge 2nd, the sire of Challenge and Pictor. His record as a two-year-old was unimpressive—four wins and two places in the starts. Saturday's victory was his third in nine starts as a three-year-old, the offspring of Challenge 2nd improve with age, and they improve as the distance is increased.

A flood of money on Challenge

Me was poured into the winner's book, following his impressive showings and following Monday's announcement that the colt is a certain starter in the Kentucky Derby, May 5, the offering of Challenge Me was made by O. B. Breakey, Chicago broker executive and owner of the Brille Farm, before shipping him through from Hot Springs to Churchill Downs, scene of the Kentucky classic.

Mrs. Casselman Says:

Dominion, Provincial Talks
Needed Before Health Plan
Can Be Put Into Effect

While it is hoped to place the proposed Dominion health insurance plan on the statute books this year, Dominion provincial conferences must be held before this can be effected, Mrs. Cora T. Casselman, Liberal member of parliament for East Edmonton constituency, stated in an address Tuesday night before the annual meeting of the East Edmonton Federal Liberal Association.

John Bible, 11234 44 street, who on Tuesday celebrated his 80th birthday anniversary.

Old-Time Resident
Now 80 Years Old

John Bible, 11234 44 street, a resident of Edmonton for 40 years, on Tuesday celebrated his 80th birthday anniversary.

Mr. Bible was born in County Tipperary, Ireland, in 1861, coming to Canada at the age of 21. In 1900 he was married to Elizabeth Ann Hill of Streetsville, who died March, 1933.

He spent 35 years in Toronto as an employee of wholesale dry goods firms, and also was in business for himself. In 1903, due to ill health, he came to Edmonton.

In 1932 Mr. and Mrs. Bible spent a year abroad. Upon his return he took a position with the Dominion government in connection with immigration, from which he retired in 1938.

During the past years he did considerable building. He is widely known as a flower fancier, having won prizes on various occasions for his garden on 116 street, where he lived prior to moving to the Highlands. He is a life member of the Edmonton Horticultural Society.

He has been member of Wesley church, ever since it was founded, the first service being held in a tent. He was one of the delegates to raise funds to have the original church built on 116 street. This was later replaced by the present structure on 117 street.

Mr. Bible is enjoying good health.

War Veterans Lead
As Blood Donors

Members of the Edmonton branch of the Canadian Cross Association have donated more blood to the armed services blood bank in Edmonton than any other organization of equal size.

The men who fought and bled in the First Great War realize the great importance of the blood bank. This was revealed at the regular monthly meeting of the corps association held in the Masonic Temple Tuesday when an appeal for more blood donors was made by Branch President S. C. S. Kerr, K.C.

Mr. Kerr asked as many corps members as possible to call at the clinic in the McLaughlin United church and arrange for further contributions.

Canadian Frigate Sinks Enemy U-Boat

While defending a valuable convoy in the North Atlantic recently, the frigate H.M.C.S. "Wakusiu" attacked and destroyed a U-boat during a thrilling action. Among the many valiant members of the crew was Petty Officer Metro Makowichuk of Red Deer, Alta., who is shown at left.

U-Boat to Bottom
In Surface Action

OTTAWA, April 5.—(CP)—Nineteen days after leaving a fitting out berth as the first Canadian-built frigate H.M.C.S. Wakusiu—pronounced Was-Ka-Sue—recently destroyed a German U-boat in the North Atlantic and brought back 19 survivors as evidence, the Navy announced last night.

Depth charges wounded the sub and forced it to the surface, where a deadly gun crew shot away the conning tower, cutting off the U-boat gunners from their weapons. Germans who survived the withering fire plunged into the sea to be picked up by the frigate and her sister ship of the Royal Navy, H.M.S. Nene.

Fifteen minutes after the sub had been forced to the surface the shattered rudder tipped up almost vertically and disappeared.

A convoy proceeded undisturbed. The Wakusiu's captain—Comdr. James Philip Fraser of Halifax—told of the surface action that followed the depth charge blossoms.

It surfaced at a good rate of speed about 1,800 yards away and almost died ahead. We illuminated it immediately with star shells and searchlights.

"Then we opened up with everything we had, the range had closed to about 1,400 yards. It was

Another resolution passed calls upon the Dominion government to give consideration to reducing the voting age. It did not state to what age the voting limit should be lowered.

Entertainment was supplied by Miss V. Camille, who sang several numbers, and by Sgt. Frank Hermon, United States Army, a musician.

Before the
Magistrate

Two charges of breach of the Industrial Control Act against Shop Kaplin were remanded Tuesday afternoon by Magistrate A. I. Miller. K.C., after hearing from the crown that probably two and possibly three other charges would be laid against the accused.

Kaplin, found guilty on one count of work day, was sentenced to the second Tuesday afternoon. The other charges were remanded to the third Tuesday at a price in excess of the maximum set.

Ben Davies pleaded guilty to keeping a dog that disturbed the peaceful serenity of his district, but added that he was hard of hearing and did not hear the animal himself. However, to avoid any further disturbances, he said, he would give the dog—a thoroughbred—to the Red Cross to sell. He was fined \$2 or four days.

George Bruden was found guilty of keeping a dog that attacked a person on the street, and was assessed \$1 or three days.

Steve Thakwas was charged Wednesday with being a "found-in" when R.C.M.P. raided a former meat market allegedly used as a gaming house.

John MacIntyre, A. I. Miller, K.C., told he and some others were only playing 100-point rummy, but he admitted having money in front of him. How he happened to be there provided a long story, but he was informed by the crown, did not coincide with the signed statement he gave the police. Found guilty of the charge, he was fined \$20 or 30 days, while the money he had used in the game was ordered forfeited.

Joe Krahul, another "found-in" by plea of guilty, was fined \$15 or 21 days, while A. similar count against Andrew Ivanov was dismissed. A fourth person, Miss V. Tully, had his case adjourned to April 12.

Stanley G. Campbell was remanded to the next sitting of a justice court on two charges of false pretences and obtaining money by false pretences.

Bill in the case was set at \$1,000.

Welders Appoint
Officers For Year

Alex L. Latta was re-elected president of the Alberta Welding Association at a meeting Tuesday night. Other officers elected were: Albert Jacobs, Port Saskatchewan, vice-president and R. J. Walker, secretary-treasurer.

Newly elected members of the executive committee are: Fred Musil, Arthur Tischer, T. J. Jacobs, A. D. Jacobs, Port Saskatchewan; H. D. Little, Philip Lee and Jerry Lee.

Following discussion on the welders' act, a committee was appointed to interview the government concerning interpretation of several sections of the law with the view of clarifying some of the welders' standing.

Former Resident
Dies at the Coast

Mrs. D. F. Hodson, wife of the late Charles Hodson, who was a resident of Edmonton prior to moving to the coast, died Tuesday at her home in Vancouver. Surviving are three sons: Thomas, Edward and Ernest; a daughter, Phyllis; and two grandchildren, all of Vancouver.

Mrs. Hodson, who was born in London, England, came to Canada with her husband in the early part of the century, and lived in Saskatchewan for a while before coming to Edmonton. She was an active member of St. Stephen's church.

A funeral service will be held in Vancouver Thursday afternoon.

Russia Discussed
At Y's Men's Meet

Club speaker at the Y's Men's club regular weekly meeting Tuesday night at the Y.M.C.A. was Dr. H. A. Cohen, who spoke on "Russia and Religion."

Rev. Beakin reviewed the status of religion in Russia prior to the revolution and said that the loss of religion there was due to the fact that it was based on superstition rather than being "something of the heart."

He was introduced by Ken Hibbert and thanked on behalf of the club by Jack Humphreys. President Maxwell Dewar presided as chairman.

Among the guests attending were: Mr. A. Hardy, the Rev. J. Patterson, L. B. Cameron and J. Cowley.

"You'll Get Used To It"

Home Building In City Soars: May Set Record

Indicating that 1944 will be a record year for home building in Edmonton is the purchase of more than 200 parcels of land from the city land department on which purchasers have signified their intention of building homes.

To date 101 home building permits have been issued by the city architect's department, and as the building season is now opening permits are being taken out at an average of 10 daily. Last year on the same date less than 50 permits had been issued.

On Tuesday the lineup of prospective purchasers of city-owned property for home building purposes was stated to be the heaviest in the recent history of the department. An official stated that property sales this year will probably exceed the record established in 1940.

Carriage Missing

Twenty minutes after she had left her baby carriage outside an Edmonton departmental store on Tuesday afternoon, she returned to find it had vanished. Mrs. C. Wolf, 1946 108 street, told city police the carriage, she said, was new, of wire-colored metal, and it contained baby shoes, a blue striped blanket, a picture, one pair of certain rods and two pillows. Post-War Influx Settlers To Canada Is Studied By Corps Association

Diametrically-opposed views on the lively subject of post-war immigration to Canada were expressed during a discussion of the subject at the regular monthly meeting of the Edmonton branch of the Canadian Corps Association held in the Masonic Temple Tuesday evening.

The discussion, which was introduced by Frank Wootton, member of the Edmonton Ex-Servicemen's Rehabilitation Committee, was continued at the regular general meeting, it was announced by President S. C. C. Kerr, K.C., after a motion to that effect was received by the chair.

In touching off the discussion Mr. Wootton quoted some interesting statistics.

Early Payment Of Insurance Under New Plan

With the inauguration of a new system of making payments for unemployment insurance, Canadians will receive benefits more promptly than workers in any other country with similar social security legislation. William Carr, manager of the local office of the Unemployment Insurance and Social Service Commission announced Wednesday.

Arrangements to make insurance payments by cash and to speed up the method of payment are now under way. The Edmonton office will be the first in the Dominion to adopt the new system.

Previously it took nearly three weeks from the time a claim was made until the worker received his payment which was made by cheque. Under the new procedure payments will be made by cash within 15 days.

Under the old system the worker filed his claim for insurance and after the allotted number of days had elapsed he would be told to send the local office had to send a requisition to the Dominion treasury office where a cheque was issued. New claims will be processed the reverse, and all payments made in cash.

THE QUESTION
 Are you all ready for the Easter parade next Sunday? How are you going to spend the holiday?

THE ANSWERS
DOROTHY HOPE, secretary: I'm all ready with my Easter bunny for next Sunday although I've worn it already because the weather has been so beautiful. I'll be going to church in the morning and I suppose I'll go to Easter parade in the afternoon, and we will top off the day with a wonderful dinner at home.

MAUREN PALMER, secretary: Yes, I'm going to be in the Easter parade. It's too far for me to go home, so I'll be spending the weekend in the city. I hope the fine weather keeps up. It has been wonderful so far.

HELEN WARREN, stenographer: We are making up a party of four and will spend the whole day together—church in the morning, a walk in the afternoon, and dinner downtown in the evening. As for our Easter outfits, we've been buying them on Saturday afternoons for the last month and a half.

Mrs. Folinsbee has been on duty at the west coast as a nursing sister in the R.C.A.F.
